(c) whether the Central Government proposes to create a new financing mechanism for the reconstruction of public infrastructure assets damaged in natural calamities?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS (SHRIMATI RADHIKA V. SELVI): (a) and (b) The present schemes for constitution and administration of Calamity Relief Fund (CRF) and National Calamity Contingency Fund (NCCF) based on the recommendation of 12th Finance Commission (2005—10) stipulate for providing financial

assistance by the Central Government to the States affected by severe natural calamities for meeting the expenditure on immediate relief. As per the scheme, the expenditure on restoration of damaged infrastructure and capital assets should be made from the normal budgetary head except when it is to be incurred as a part of providing immediate relief.

In its recommendations concerning the requirement of funds by the States for reconstruction of damaged infrastructure, 12th Finance Commission noted "expenditure on restoration of infrastructure and other capital assets, except those which are intrinsically connected with relief operations and connectivity with the affected area and population, should be met from the plan funds. 12th Finance Commission has also noted "the restoration of damaged infrastructure has to be planned very often to new standards, arrived at after detailed analysis of the phenomena and also it has to be done by following the prescribed procedure, which obviously, is not possible as part of any immediate relief programme" and recommended "the provision for disaster preparedness and mitigation needs to be built into the State Plans and not as a part of Calamity Relief."

Taking into account the recommendations of the 12th Finance Commission, the States have been projecting their sector-wise requirements of funds for long-term reconstruction of damaged infrastructure in their successive Annual Plans.
